

BLOOMTIME®

PLANT PALETTES

Purple Lover (full sun)

Purple lovers, you're in luck! This Plant Palette features blooms in vibrant shades of purple that will make you swoon. This mix of plants is perfect for full sun with medium moisture.

Pollinator Special (full sun)

Butterflies and bees can't get enough of this Plant Palette! Native pollinators are disappearing, and now you can help save them by providing pollinator habitat at home that looks beautiful in all seasons.

Fern Glade (part shade)

This Plant Palette makes you feel like you're in a small forest clearing, where dappled light makes its way to the forest floor. Two types of ferns are enhanced by colorful foliage and a late-blooming burst of yellow.

Meadow (full sun)

Modeled after an iconic meadow, this combination of plants will make you feel like you're in the countryside. This is our longest blooming Plant Palette and, like a meadow, it attracts butterflies!

Stress Lovers (full sun)

This drought-tolerant Plant Palette is perfect for the toughest places: dry locations in full sun. It may fare well in difficult locations, such as windy balconies.

Formal Garden (full sun)

This Plant Palette lets you have a more conventional garden that's also good for the environment. With evergreen shrubs and sophisticated color blocks, this combination of plants is sure to impress.

Veggie Patch (full sun)

Hello home-grown veggies, goodbye elbowing your way through the organic produce aisle! This Plant Palette helps you grow delicious edibles from the comfort of your home. Plants will last one season.
